FEATURES

Uses a GPS receiver to measure true ground speed and delivers a frequency signal compatible with the radar signal speed input on most controls and monitors. GPS eliminates the problems frequently found with RADAR speed sensors from wet surfaces, moving crops or vehicle vibration.

Wide range of adapter cables to make it compatible with all popular application systems.

904-182	*Mounting Bracket Included (880-140, 865-165, 844-205, 843-175)	84,83
ACCESSORIES		
880-140	Bracket, Vehicle Part.	39,01
865-165	Plastic Spacer	13,02
843-175	Bracket, Controller Part.	24,12
844-205	Nut	4,97

FEATURES

The LH4000 spray controller provides a comprehensive picture of the actual working conditions of a sprayer. It also provide a selectable 'other implement' feature for e.g. speed & area recording etc.

Automatic speed and boom status compensated application rate control. The forward speed, spray-boom status, and the actual application-rate are permanently displayed.

The operator has a large selection of specific information, e.g. as worked area, liter sprayed, consumption, actual l/min output, etc.

FEATURES

910-219:
Complete kit includes speed sensor, rpm sensor (pump), rpm sensor (shopper) and LH5000 mounting and cables for el-hydraulic valves; does not include flow meter.

LH5000 installation kit for slurry tankers where the flow is controlled via a hydraulic cylinder (the cylinder must be controlled of el-hydraulic.)

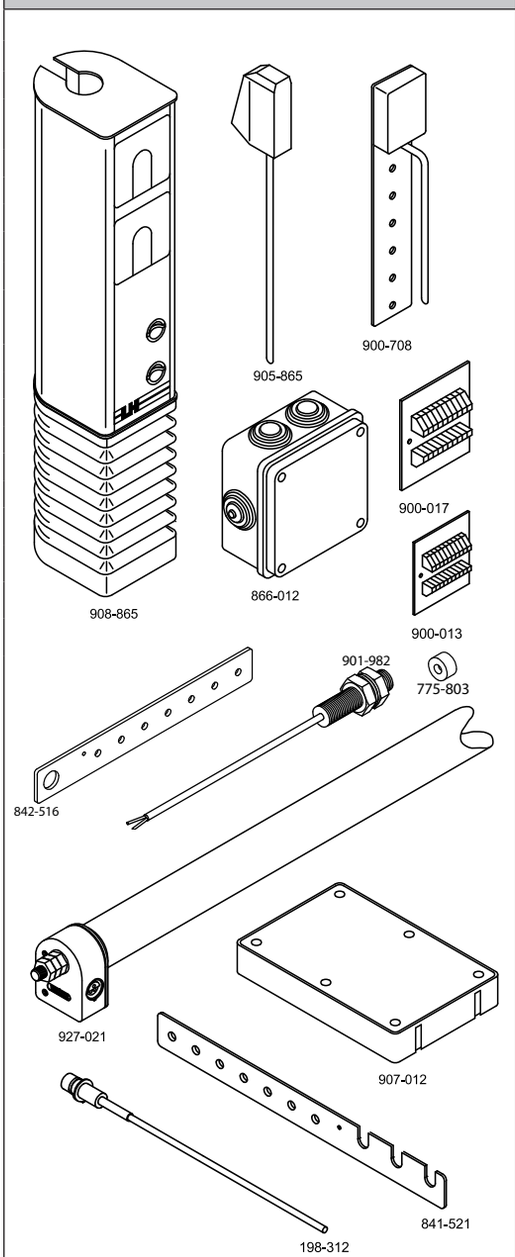
LH865 GRAIN LOSS MONITOR



PART NO.	DESCRIPTION	EURO
KITS		
990-865-xx	LH865 Grain Loss Monitor Kit, with Grain Loss Sensors	€ 2186,31
907-865-xx	LH865 Grain Loss Monitor Kit, without Grain Loss Sensors	1381,11
905-000	Sensor Kit For Grain Loss Monitor, Complete Kit Includes 2 Straw Walkers- & 1 Sieve Sensor	805,04
908-012	Straw Walker Sensor Kit, (2 Pcs.)	436,74
928-020	Sieve Sensor Kit, Includes Cable 198-312 (Steel 1648 mm)	381,81
ACCESSORIES		
908-865	LH865 with Foot	1200,22
905-865	Multi Cable For LH865 with Plug	100,74
900-708	Light Sensor	37,02
866-012	Junction Box	10,32
900-017	Print For Junction Box 1	50,36
900-013	Print For Junction Box 2	37,02
775-803	Magnet	2,99
901-982	Sensor, 2-Core, 10 m	59,31
842-516	Bracket	8,08
927-021	Sieve Sensor, Steel 1648 mm, without Cable	370,75
907-012	Straw Walker Sensor	217,95
841-521	Mounting Bracket For Sieve Sensor	8,95
198-312	Cable For Sieve Sensor, 1,6 m	34,90

FEATURES

990-865:
Complete kit includes LH865 monitor, grain loss sensors for straw walkers and sieves, speed sensor, light sensor and installation kit.

907-865:
LH865 monitor kit includes speed sensor, light sensor and installation kit.

Grain loss monitor for straw walkers and sieves, includes compensation for speed and light.

FEATURES

RS232 GPS cables connects TeeJet Rate controllers to mapping computers like: Matrix GS, Greenstar, Yara-N, IPAQ, LH665 and generic PC based terminals.

TeeJet TECHNOLOGIES ISOBUS SPRAYER

	PART NO.	DESCRIPTION	EURO
ISO 11783 Compliant System	**KITS**		
	903-318	Matrix 570VT Kit	Contact TeeJet
	903-210	IC18-ISOBUS Kit, TJ844 Compatible	
	901-456-100	TeeJet ISOBUS SwitchBbox, 9-Section	

Easy to Use and Future-Proof
IC18 offers the best combination of highly effective sprayer control and ISO 11783 (ISOBUS) system compatibility. The IC18 is fully ISOBUS compliant so connection to your tractor's built-in ISOBUS terminal, or the TeeJet Matrix 570VT terminal are all possible. In either case, this system provides proven TeeJet sprayer control compatible with tomorrow's standards.

Special Items
Items not identified on the product repair list will be repaired using the standard hourly repair rate plus parts, if the item is repairable. Please contact TeeJet Technologies Technical Support department for more details.

Returning A Product For Repair
All items returned for repair from end users or non-TeeJet Technologies dealers must be pre-approved by a TeeJet Technology dealer. Please contact your regional TeeJet Technologies office or TeeJet Technologies Technical Support department if you need assistance finding a dealer.
Remember to include a brief written description on the reason for your return!
An 'RMA' form can be requested via support.aabybro@teejet.com

Cleaning Requirements
Products returned to TeeJet Technologies must be thoroughly cleaned and free of all chemical contamination. Items which are not properly cleaned will be returned to the owner at their expense.

OEM Products
Repair of OEM products is normally handled by the OEM customer. Please contact your regional TeeJet Technologies office or TeeJet Technologies Technical Support department for assistance.

Diagnostic And 'No Defect' Check Out Fees
1. Items returned for repair which are diagnosed with 'No Defect' will be charged a standard No-Defect diagnostic fee.
2. A diagnostic fee will also be applied to items which are diagnosed 'Non Repairable'.These items will be returned or scrapped according to the customer's request.

Same-Day-Repair Service Charges
Customers requesting 'Same-Day-Repair' service will be charged an additional Same-Day-Repair service fee.
Please note: Same-Day-Repair service may not be available on all products. Please contact TeeJet Technologies before returning the item.

Unauthorized Modifications And Repairs
Unauthorized modifications on any product manufactured or distributed by TeeJet Technologies will automatically void the factory warranty. Standard 'Out-of-Warranty' charges will be added to update the product(s) to 'Warranty Status'.

Repaired Items Warranty Period
Items returned for repair to TeeJet Technologies will be provided a 90-day warranty period from the date of repair.

Service Replacement Consoles
TeeJet Technologies dealers are responsible for stocking service replacement consoles. If a dealer is temporarily out of service inventory, TeeJet Technologies has a limited inventory of re-manufactured consoles to be used in special cases. Please contact TeeJet Technologies Technical Support department for specific product availability. The service replacement unit will be invoiced with the standard list price for the product. When the defect unit is returned to us, along with the order number following the replacement unit, the invoice will be changed to the actual repair price plus a Same-Day-Repair service fee.

Online Support

The number above is the main support number. You can also contact us by e-mail. The team covering Europe receives e-mails in Danish, English and German. Written replies are provided in Danish or English. For Southern Europe, e-mails are received and replied to in French and English.

SALES AND DELIVERY CONDITIONS of 01.10.2004

(1)APPLICATION AND VALIDITY

(1.1) Present sales and delivery conditions apply for any quotation, order, and delivery unless deviated from in a signed agreement.
(1.2) Special or general conditions in sales material, orders, or purchase conditions, etc. made by the buyer are not considered as exceptions unless accepted by the seller in writing.

(2) PRICES AND SHIPMENT

(2.1) The seller's prices stated in the current price list of products and spare parts are without the rate of VAT in force at the time in question, extra expenses and packaging. The seller reserves to himself the right to change the prices (without notice/at 4 weeks notice). Confirmed orders will, however, be delivered at the price in force at the date of the order confirmation. Mounting and installation are not included in the price. Please ask for separate quotation.
(2.2) Unless otherwise agreed in writing, terms of shipment are ex works LH Technologies Aps, Moelhavevej 2, 109, DK-9440 Aabybro, acc. to Incoterms 1990. Damaged goods must immediately be complained to the responsible forwarding agent (carrier, etc.).
(2.3) Any transport costs for products for repair or for service exchange (from sender to LH Technologies and from LH Technologies to customer) are on the buyer's account. On return of products bought by mistake, the seller submit a credit note for the invoice amount less 20%.

(3) PLACING OF ORDERS AND DELIVERY TIME

(3.1) The buyer places the order in writing, preferably by telefax or email. The order must contain the LH part numbers. (as stated in the price list), quantity and requested time of delivery.
(3.2) Standard articles usually are stock goods. The time of delivery for temporarily sold out goods or for special products will be stated in the seller's quotation/confirmation of order. The agreed delivery time is not binding for the seller, if the buyer does not keep the agreed payment terms as to payment in advance, opening of L/C, or producing a banker's guarantee.
(3.3) Delays caused by the seller and not subject to force majeure entitle the buyer to contact the seller in writing and demand delivery. The buyer is in such case entitled to fix a final delivery time within minimum 4 weeks. If the seller does not keep the delivery time fixed by the buyer, the buyer is entitled to cancel the agreement.
(3.4) The buyer cannot put forward any other claim for consequential losses or damages, etc. in connection with the delay.

(4) SPECIAL-PURPOSE OR PRIVATE LABEL PRODUCTS: SPARE PARTS AND POSSIBLE SURPLUS STOCK

(4.1) When placing orders for special-purpose or private label products the buyer is under an obligation also to order spare parts of special components if he wants original colour, design, construction, etc. for service and repair purposes. If the buyer does not make such an order the seller is not under the obligation to supply exchange products or components with original colours, etc. for warranty repairs, repairs after the warranty period, etc. The seller's service department will assist in calculating the demand on above quantities.
(4.2) If the buyer stops placing orders for a special-purpose or private label product or if the buyer does not buy the surplus stock of special-purpose or private label products from the seller within a reasonable time the seller is entitled to demand payment of the surplus stock from the buyer.
(4.3) The seller's prices stated for special-purpose or private label products does not include expenses for layout and working drawings of special designs. Costs for preparation of manuals (layout, working drawing, etc.) are not included. The price includes design with max. 3 colours. (More colours against additional price). Also the price includes packaging of the product in the seller's standard packaging. (Other packaging against additional price).

(5) PAYMENT AND RETENTION OF TITLE

(5.1) Unless otherwise specially agreed the terms of payment is: 30 days, net.
(5.2) Delays do not entitle the buyer to withhold payment, just as payment cannot be withheld due to the buyer's counterclaims, if any.
(5.3) In case the buyer does not pay in due time the seller is entitled to demand interest according to the rate stated in the seller's quotation/order confirmation / invoice as per commenced month from the due date of payment till the amount is duly settled. In case no rate of interest has been stated, 1½% per month will be claimed. Unless otherwise agreed payment must take place as a bank transfer to the seller's account for the buyer's expenses.
(5.4) The seller reserves the right of ownership to any delivery, also if not specially claimed, until the entire amount, including payment of interests, if any, has been duly settled.

(6) COMPLAINTS, WARRANTY AND DEFICIENCIES

(6.1) On receipt the buyer is obliged to examine that the goods are in good condition. The buyer must inform the seller of any deficiency not later than 48 hours after the receipt of the goods.
(6.2) On the condition the agreed terms of payment are fulfilled the seller grants 12 months warranty from the date the user puts the product into service, however, max 13 months from the date of delivery to the buyer. The warranty includes errors and deficiencies due to manufacturing faults. Faulty products must be returned to the seller together with the name and the address of the user, name of the buyer, date of purchase, serial No., and description of the error. The seller will then determine if the product will be repaired according to guarantee terms.
(6.3) The seller's guarantee and the buyer's right to have a defect repaired will be observed by a replacement, returning and credit of the goods in question, or by granting the buyer a price reduction. It rests with the seller what solution to make use of.
(6.4) A justified warranty claim sent to the seller within 60 days from the delivery will often be handled by forwarding a replacement product, however, the seller is not obliged to. During the remaining warranty period a warranty claim will often be settled by sending a renovated product or by repairing the faulty product forwarded to the seller. In warranty cases the seller pays for standard transport costs to and from the seller. In case the buyer wants special transportation services, say courier, express, etc., the buyer himself must pay the extra costs. A warranty repair made by the seller includes materials and wages, but excludes external repairs and wages, unless specially agreed in advance with the seller's service manager (in writing).
(6.5) The seller's responsibility for faults and defects is always and in any case limited to repair, exchange, returning and credit or a price reduction.
(6.6) The seller's responsibility for faults and defects does not include the consequences of natural wear and tear, insufficient maintenance, faulty operation, repairs not made by the seller or any other circumstance for which the buyer is responsible or bears the risk.

(7) PRODUCT USAGE

(7.1) Any use of the product is at the sole risk of the buyer. The buyer is therefore not entitled to any form for compensation caused by, for example, any of the following: Disturbance to/ from any electronic services or products that do not confirm to the standards for CE marking.
Missing or poor signal coverage or a succession hereof from external transmitters/receivers, used by the buyer.
Functional faults, which apply to or from a PC-program or PC-equipment, not delivered by the seller.
Faults that may arise from the buyers negligence to react to warnings and fault messages from the product, or which can be traced to negligence and/or absent constant control of the work carried out in comparison to the planned job.
(7.2) When implementing any new equipment the buyer must take great care and pay attention. Any doubts as to correct operation/use should result in contacting the seller's service department.

(8) VIOLATION OF PATENT OR TRADE MARK

(8.1) The seller disclaims the responsibility for any violation of third party's immaterial rights on products marketed, distributed, and sold by the buyer under his name and trade mark, including violation of trade marks, etc, which the product or its application might give reason to, whether the product is used isolated or in configuration with other products. This also applies for products marketed in the seller's name or trademark where the product is part of a configuration or the like with other products.

(9) PRODUCT LIABILITY

(9.1) The seller is not liable for damage on real and personal property that occur while the goods are in the buyer's possession. Besides the seller is only liable for damage on real and personal property in case it can be proven that the damage is due to neglect caused by the seller or by person for whom he is responsible.
(9.2) Nor is the seller liable for damage on products manufactured by the buyer or on products on which these are part.
(9.3) The seller is not liable for any loss of profits or any other indirect losses. Besides the seller's liability cannot exceed € 1.500.000 just as the seller is only liable for 1 year from the date the product was received by the buyer. The stated amount is the seller's maximum product liability towards the buyer within 1 year.
(9.4) To the extend the seller might be held liable for product liability towards third person the buyer shall indemnify the seller to the same extend as the seller's liability is limited according to above conditions.
(9.5) In cases where both buyer and seller are liable as manufacturers the buyer shall bear the final liability, according to the law on product liability, § 11, sub-article 2.
(9.6) If a third party claims compensation for product liability towards the buyer the buyer must immediately inform the seller accordingly in writing.

(10) FORCE MAJEURE

(10.1) The following conditions will give the seller freedom from responsibility when they occur after the agreement has been entered and thus obstruct or postpone the fulfilment of the agreement:
(10.1.1) War and mobilisation, revolts and riots, catastrophes of nature, strikes and lockouts, shortage of goods and shortage and delays of supplies from subsuppliers, fire, missing transportation opportunities, currency restrictions, import/export restrictions and other circumstances beyond the seller's control.
(10.2) In these cases the seller is entitled to cancel the order completely or partly or to execute the order when the fulfilment obstruction has come to an end.

11. LAW AND JURISDICTION

(11.1) Any dispute between buyer and seller in connection with the agreement, including the interpretation and the extend of present sales and delivery conditions must be settled by Danish Court after the seller's choice, either at the Law in Aalborg or by arbitration in accordance with the rules laid down in the "Copenhagen Arbitration".
(11.2) Besides the seller is entitled to bring an action at the court in the jurisdiction where the buyer's business is situated.
(11.3) Regarding product liability buyer and seller are mutually obliged to let him sue at the court that deals with claims of damages that a third party wants to have settled by the court.
